**DETAILED ACTION**

***Election/Restrictions***

Restriction to one of the following is required under 35 U.S.C. 121:

- I. Claims 1-22, drawn to a pharmaceutical agent, is for example classified in class 530, subclass 300.
- II. Claims 23-27, drawn to a method of treatment, is for example classified in class 514, subclass 2.

The inventions are distinct, each from the other because of the following reasons:

The inventions of groups I and II are related as product and process of use.

The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP 806.05(h)). In the instant case the method of treatment does not require the pharmaceutical agent.

Treatment of physiological conditions can be accomplished using other pharmaceutical agents and/or treatment methodology.

Art Unit: 1654

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.1.43).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Roy Teller whose telephone number is (703)305-4243. The examiner can normally be reached on Monday-Friday from 5:30 am to 2:00 pm.
